

FPCV-Series Vise

Cylinder Vise

This cylinder vise has been designed to securely grip various length and diameter cylinders for assembly and/or maintenance. Using our "No-Mark" urethane grips, cylinders are firmly gripped in-place with a single button pneumatic control. With a swing away short cylinder stand, both short and full length cylinders are easily accommodated. Other models in this line are available as listed below. Contact headquarters for details.

Medical Cylinder Vise, 4 Station

Increasing operator and production efficiency by minimizing changeover, this cylinder vise has been designed to securely grip one to four cylinders for assembly and/or maintenance. Design includes a convenient tool tray, an adjustable cylinder stand, and incorporates our safety orange "No-Mark" urethane grips. An additional tray has also been included which supports our Cylinder Inspection Light, or doubles as a second tool tray. Using customer feedback, we have been able to provide a safe, highly efficient, and ergonomic workstation for the operator.
